

Course Evaluations

Universidad Carlos III de Madrid

Table 1 presents the quantitative results of my teaching evaluations at Universidad Carlos III de Madrid, where I taught four sections across two courses during the 2021/22 academic year. I was not the instructor of record for these courses. All four sections were small-group sessions, scheduled separately from the lectures, that I led independently, and my responsibilities included designing problem sets and exam questions and grading. Instruction was in English. The evaluation instrument is the university's own and differs from the one used at the University of Georgia. Each item was assessed on a scale ranging from 1 to 5, where a score of 5 corresponds to strongly agree and 1 to strongly disagree.

Both terms of this teaching were recognized with a Teaching Excellence Acknowledgement (*Carta de Felicitación*) from the Office of the Vice-Rector for Quality, dated February 10, 2022 and June 20, 2022. The university grants this recognition when an average above 4 out of 5 is obtained on the teaching evaluation survey and more than 30% of the students in the class respond.

Table 1: Quantitative Feedback for Courses Taught at Universidad Carlos III de Madrid

Questions	Fall 2021		Spring 2022	
	Principles of Economics (gr. 72)	Principios de Economía (gr. 51)	Mathematics for Economics II (gr. 70)	(gr. 71)
Teaching Performance				
Stimulates learning appropriately	4.63 (0.74)	4.25 (0.97)	4.93 (0.26)	4.92 (0.27)
Plans and coordinates the class well and explains clearly	4.53 (0.82)	4.38 (0.99)	4.93 (0.26)	4.92 (0.27)
Resolves questions and guides students through the coursework	4.68 (0.73)	4.75 (0.43)	4.86 (0.52)	4.85 (0.36)
Average (A)	4.61 (0.77)	4.46 (0.87)	4.90 (0.37)	4.90 (0.30)
Overall				
Overall, satisfied with the instructor's teaching (B)	4.68 (0.73)	4.25 (1.30)	4.93 (0.26)	4.92 (0.27)
Global Quality Measure	4.68 (0.73)	4.46 (0.87)	4.93 (0.26)	4.92 (0.27)
Number of Responses	19 of 35	8 of 21	14 of 35	13 of 32
Response Rate	54.3%	38.1%	40.0%	40.6%

Note: Standard deviations in parentheses. Item wording translated from the Spanish original. The Global Quality Measure is the university's summary statistic, defined as the higher of (A) and (B). Degrees: Business Administration (groups 70, 71, 72) and Labor Relations and Employment (group 51), Faculty of Social Sciences and Law, Getafe campus.

Benchmarks reported by the university alongside each result, comparing the Global Quality Measure against all students in the same course and all students in the degree program: Principles of Economics, group 72, **4.68** versus 3.97 and 4.06; Principios de Economía, group 51, **4.46** versus 3.61 and 4.26; Mathematics for Economics II, groups 70 and 71, **4.93** and **4.92** versus 3.60 and 4.07. All four sections scored above both the course and the degree program average.
